

Detailed Course Syllabus

Academic Year	2023./2024.	Semester	Summer
Study Program	Graduate university study	Specialization/Major in	For Student Incoming Mobility
		Year of Study	1-2

I. BASIC COURSE INFORMATION

Name	Music Therapy in Children and Adults with Communication Difficulties		
Abbreviation	IZBEPSIH16	Code	251868
Status	elective	ECTS	3
Prerequisites	none		
Total Course Workload			
Teaching Mode	Total Hours	Teaching Mode	Total Hours
Lectures	15	Practice	30
Class Time and Place	Catholic University of Croatia		

II. TEACHING STAFF

Course Holder

Name and Surname	Ksenija Burić		
Academic Degree	PhD	Professional Title	Assistant professor
Contact E-mail	ksenija.buric@unicath.hr	Telephone	+385 915297219
Office Hours	According to the published schedule		

III. DETAILED COURSE INFORMATION

Teaching Language	English
Course Description	<p>Goals of the course:</p> <p>To acquaint students with music therapy as a scientifically based discipline and to explain the development, philosophical and theoretical foundations of music therapy, To acquaint students with the needs of children and adults with communication difficulties and the benefits of applying music therapy as a form of intervention, To present the basic, in practice most often used, models, methods and techniques of music therapy, To explain the approaches and goals of music therapy, To create conditions for the acquisition of basic musical skills in the form of instrumental and vocal improvisation. Explain and, through experience, explore the possibilities of using Orff instruments, Adopt the techniques of creating songs and creating dance and movement, Point out the importance of different non-verbal forms of communication, Get to know and present the possibility of building</p>

simple instruments from different materials, Create conditions for the acquisition of basic musical skills, Refer to reading and exploring scientific studies of the benefits of music therapy in different therapeutic settings, Encourage the need for lifelong learning and the acquisition of musical skills.

Course content:

Difference between music pedagogy and music therapy, History of music therapy, Theoretical bases in MT, Basic principles of music therapy, Models and methods in improvisation in MT, Techniques in MT, Goals in MT, Selection of instrument in MT, Importance and role of music therapist, Process MT, Sequence of activities during the session, Setting short-term and long-term goals, Playing rhythm instruments, Playing accompaniment on a harmonic instrument, Creating a song, Designing dance and movement, Difference between receptive and active MT, Individual and group therapy, Documentation

Expected Educational Outcomes	Understand the difference between music education and music therapy, Know the basic models in MT, Apply basic concepts of music therapy, Apply different models and techniques, Set short-term and long-term goals, Know how to choose an instrument for clients, Design an MT session, Play rhythmic percussion instruments, Play basic chords on piano and guitar, Play, sing and improvise with clients, Design dance choreographies, Know how to choose appropriate and suitable music, Make independent instruments from various materials, Encourage clients to create the musical piece, Connect acquired knowledge and skills, Be able to apply acquired knowledge and skills in working with children and adults with communication difficulties, Write a report and opinion after sessions, Study professional literature
--------------------------------------	---

Examination and Grading

To Be Passed	yes	Exclusively Continuous Assessment	no	Included in Average Grade	yes
Prerequisites to Obtain Signature and Take Final Exam		Regular attendance at classes (at least 70% attendance) Obtaining a minimum of 35% points (out of a total of 100 points) during class (colloquium, exercises)			
Examination Manner		Continuous evaluation of student work through teaching activities Final exam: - written part - minimum for passing the written exam is an accurateness of 50%			

- practical part - improvisational techniques

Grading percentage:

1. Teaching activities – 70%:
 - colloquium – 40%
 - practice – 30%
2. Final exam – 30%

Grading Manner

The numerical grading scale for student work:

- excellent (5) – 90 to 100% points
- very good (4) – 80 to 89.9% points
- good (3) – 65 to 79.9% points
- sufficient (2) – 50 to 64.9% points
- insufficient (1) – 0 to 49.9 % points

Detailed Overview of Grading within ECTS

Teaching activities	ECTS credits – coefficient of student workload	grading percentage (%)
Attendance	0,8	0
colloquium	0,9	40
practice	0,6	30
Total	2,3	70
Final exam	0,7	30
Total	3	100

Midterm Exam Dates

According to the published schedule

Final Exam Dates

According to the published schedule

IV. WEEKLY CLASS SCHEDULE

Lectures

Week	Topic
1.	The difference between music pedagogy and music therapy
2.	History of music therapy
3.	Theoretical foundations in MT
4.	Models, methods, and techniques in MT
5.	Concepts of music therapy

6.	Nordoff – Robbins and Orff music therapy
7.	Techniques in MT
8.	Objectives in MT
9.	Selecting an instrument in MT
10.	The importance and role of the music therapist in the MT process
11.	MT process
12.	Sequence of activities during the session
13.	Difference between receptive and active MT
14.	Individual and group therapy
15.	Documentation

Practical work

Week	Topic
1.	Practical examples on the topic of music pedagogy. Practical examples on the topic of music therapy activities
2.	Development of divergent thinking. Development of convergent thinking.
3.	Exploring and playing melodic instruments. Exploring and playing rhythmic instruments.
4.	Basic guitar chords. Basic chords on the piano.
5.	Songwriting techniques. Basic concepts in the music therapy process.
6.	Similarities and differences between Orff music therapy and Nordoff Robbins MT The use of the piano and the role of the co-therapist in the MT process.
7.	Techniques of imitation, mirroring, and matching. Application of techniques in musical dialogue.
8.	Setting short-term and long-term goals in the MT process. Colloquium
9.	Use of rhythmic instruments from Orff's instrumentarium. Use of melodic instruments from Orff's instrumentarium.
10.	Arrangement of the MT environment. The child at the center of the MT process.
11.	MT planning. Activities in MT.
12.	The sequence of activities and visual support. Good morning song and Goodbye song.
13.	Active MT. Receptive MT.
14.	Individual MT session. Group MT session.
15.	Assessment scale in MT. Evaluation of the MT process.
